

Swiss Med Office, the medical concierge at Lausanne Palace, offers in collaboration with Clinique de Montchoisi an innovative program and a unique experience:

## Health audit (half day)

This screening detects illnesses at an early stage, identifies risk factors and checks your lifestyle habits in order to preserve your future.

## Program

The check-up lasts a short half-day. It begins in the morning – fasting from midnight – and ends after lunch.

### Analysis

- ✚ Laboratory analysis: various blood and urine markers help reveal biological changes

### Diagnostic Imaging

- ✚ The last generation technical facilities help examine the functioning of your organs

### Medical Consultation

- ✚ During this consultation, the specialist in internal medicine will deliver your results, summarize your state of health and provide you with a health plan to reduce your risk factors

Clinique de Montchoisi also offers the implementation of personalized programs, adapted to your needs. Swiss Med Office, Lausanne Palace medical concierge, is at your entire disposal for any further information.

## Services included

### Laboratory analyses

- ✚ Standard biological parameters
- ✚ Metabolic markers
- ✚ Markers of the cardio-vascular risk
- ✚ Hormonal measurements
- ✚ Urine analysis (sediment)

### Diagnostic Imaging

- ✚ Chest X-ray

### Medical consultation

- ✚ Final consultation: presentation of the results, diagnosis and preventive medicine action plan
- ✚ Complete written report (forwarded within 3 weeks after the check-up)
